This refund will be paid in "A" stock, and will amount to approximately $17,000. This action reduces the members' net interest cost for money during 1962 to approximately 5 per cent. Va. Pensioners Face Income Loss

William L. Kerns, Area Division of War Veteran Claims, 1111 Church Street, Lynchburg, announced today that:

About 1100 Virginia veterans and widows and children of veterans have had their Veterans Administration pension checks suspended because they failed to return their annual income questionnaires by January 31. The checks of more than 1000 other veterans and dependents have also been stopped because the income cards they sent in were incomplete or incorrect.

Prompt action by those who have not returned their income cards is required if the pensioner expects to avoid paying back all of last year's pension, and if still eligible, to get back on the pension list. Although the deadline was January 31, 1963, the VA will still accept late questionnaires and release the pension or make necessary adjustments. The VA is going to help these delinquents in about 10 days by sending out a second income questionnaire.

KERNS stated that the office is open Monday through Friday from 8:30 a.m. to 4:30 p.m. to assist those needing assistance. Furthermore, he is at the Appomattox County Courthouse each second and fourth Tuesday of each month from 10 a.m. to 3 p.m.

Ministers Tour State Police Headquarters

Clergymen of the Appomattox Ministerial Association saw the latest in crime detection devices during their tour of 3rd Division, State Police Headquarters in Appomattox.

Lt. J. L. Hedrick conducted the tour of State Police Headquarters which included a look at the "Identi-Kit". Investigator R. L. Bumgardner, who has been in charge of the kit explained that this device originated on the West coast.

He told how the first "kit" was invented at the cost of $87,000. Each kit is now rented for $482 a month. Each Identi-kit is used to form a picture of an unknown person who has committed a crime. The investigator goes to the scene of the crime and talks with a person or persons who have seen the criminal.

The kit which has numerous plastic slides, each with a number, and each one bearing an outline or drawing of permanent features. The slides are arranged in multiples to give a composite picture of the suspect in the case.

Bumgardner explained that this is not an artist's "Drawing" — but rather a compilation of facial features already drawn on the plastic. He stated that the operator of the kit will get a much effort to exhonerate an innocent man as to convict the guilty.

Special Investigator Lt. Lindsey, Jr., senior operator of the polygraph or "lie detector" said that this type of machine is used by every branch of the government and armed forces, by many colleges and universities, and every branch of police work. Many tests are inconclusive, he said; but many more are quite evident.

About one-third of the persons tested are proven innocent; the other two-thirds try deception. But of these, about 75 percent confess before leaving. Persons with a guilt - complex about almost everything, and persons with low morals, low intelligence, are the hardest to "read"; while those with high intelligence, high morals are the easiest and most accurate.

Local tests, Rainey said, have never proven wrong about any persons concluded guilty. In only one case where the operators concluded a man was innocent, he was later proved guilty. Rainey pointed out the special chair in which the person tested sits; the clamps used, and recording devices to note a person's breathing rate, functioning of sweat glands, and blood pressure.

Next meeting of the Ministerial Association is set for Tuesday, April 2, at the Appomattox Court House Presbyterian Church.

Reserve Your Park Cabin For '63 Season

Applications for State Park cabins for the 1963 season are now being accepted, Ben H. Bolen, Commissioner of Parks of the Virginia Department of Conservation and Economic Development, has announced.

Applications for cabins must be made on official forms, which may be obtained form the Division of Parks, Room 106 Travlers Building, 1108 East Main Stret, Richmond, Va., or from the Superintendents at the Parks.

Housekeeping cabins, fully screened and furnished, are available at seven of the eight parks. There are Claytor Lake, near Dublin; Douthat, near Clifton Forge; Fairy Stone, near Stuart; Hungry Mother, near Marion; Prince Edward near Burkeville; Staunton River, near South Boston, and Westmoreland, near Montross. The Natural Park, near Richmond, has no cabins.

Cabins will be available for the 1963 season from May 15 until October 1. Cabins may be rented during this period for one week. When space is available, the rental period will be extended to a maximum of two weeks. All cabin reservations begin and end on Monday. Concessions in the Parks, which include restaurants, stores, lifeguard service, boat rentals and horseback riding, will be open May 30 and extend through Labor Day. Bathing and swimming will not be permitted prior to May 30 and after Labor Day.

Bolen also announced that the State Recreational areas — Bear Creek in Cumberland County, Goodwyn Lake in Prince Edward County and Holiday Lake, in Appomattox County — will be open during the 1963 season from May 30 through Labor Day. None of the recreational areas has cabins or overnight accommodations but camping facilities are available in each area. Each area has picnic facilities and offers bathing and swimming, including bathhouse and lifeguard service; boats fishing, and a store where light refreshments are for sale.

Tent and trailer camping areas in the State Parks and State Recreational Areas will be open for use April 15 through October 15.
